PHASE FIVE – Follow-Up Assistance

8. The Results Articulator™ — presentation of initial “Ends” policies; preparation of annual board agenda plan.

9. The Governance Progress and Support (G.P.S.™) System — remote “coaching”/assistance provided for six to twelve months (typical duration — negotiable based on client need/request). On-site follow-up training and assistance may also be included.

How We Work — While daily and hourly rates are available, most clients prefer a turnkey project fee package for our Board Performance System™ training and services. Our price is based on the individual organization’s needs and the scope of services being contracted. Please contact us for an individual proposal.
